Recipients of the James Hillier Foundation Scholarship

This year marks the 100th year since the birth of James Hillier on August 22nd, 1915. To recognize and honour the legacy of Dr. James Hillier, to the scientific community, to Brantford, through the gift of his scientific papers, his generous donation to establish the scholarship program, a number of activities will be taking place this year.

The highlight will be *An Evening with Chris Hadfield*, a retired Canadian astronaut. Hadfield flew two space shuttle missions, served as Commander of the International Space Station, and was the first Canadian to walk in space. This joint presentation of the James Hillier Foundation and the Sanderson Centre will take place on Thursday September 10th, 2015 at 7:00 pm. Tickets will go on sale Friday June 12th at noon at the Sanderson Centre Box Office. If you are able to attend please advise Marg Simpson at dalemargs@rogers.com as the Foundation would like to acknowledge previous winners.

Other activities include Famous Faces street banners, memorial flower display, Brantford City Proclamation. To honour this year, a maximum of four scholarships will be presented. A donation will be given to celebrate James Hillier School's 65th anniversary supporting their science fair. This is just the start of our plans. The Foundation hopes you will join us in honouring Dr. James Hillier.

Sincerely,

Dr. Stephen Horne
Chair - James Hillier Foundation
